M.S. in Human Factors &
Information Design

M.S. in Information
Technology

B.S. in Economics &
Management

AI Agents Platform For Enterprise Integration

- Designed the human-AI collaboration model for an enterprise AI coding platform, reducing task start time 89%, increasing task success 56%, and cutting review time 95%.
- Built the product foundation across AI UX, design system, and developer workflows from MVP to enterprise.
- Partnered directly with founders and engineers to define product strategy and ship AI features.

Consumer AI Creation App

- Co-founded and designed an AI-native content creation app, owning the end-to-end product experience.
- Defined the product's visual language, AI generation workflows, and design system.

Oracle Fusion Customer Service Apps

- Designed Oracle Fusion Service's AI workspace used by 12,000+ organizations, simplifying enterprise support workflows.
- Contributed reusable components to Oracle Redwood Design System used across enterprise applications.

Enterprise Learning Platform

- Launched Video Practice, a new enterprise learning experience, within four months as the sole product designer.
- Improved the platform through research, rapid prototyping, and design system enhancements.

Cloud Platform & Design System

- Built the organization's first design system and designed cloud platform experiences from the ground up.

Growth, Online Learning

- Led product design initiatives that grew the platform's user base 20x.
- Designed the first mobile experience and live streaming features, increasing viewership 5x.

Bentley University

- Graduated with Distinction, Academic Scholarship
- 2017 - 2019 · Waltham, MA, USA

University Of Hong Kong

- 2012 - 2013 · Hong Kong SAR, China

Shenzhen University

- Dean's List, First Class Scholarship
- 2008 - 2012 · Shenzhen, China
